

**The Centre for Rural and Remote Mental Health
is pleased to welcome**

**International Guest Researchers
Presenting**

‘A Taste of Neuroscience Research’

Thursday 26 June 2008

10.30am – 12.45pm

Centre for Rural and Remote Mental Health, Orange

The CRRMH is fortunate to have four guest speakers from Germany and the United States to present a range of topics on neuroscience tailored for people interested, but not necessarily experienced in this field.

Dr Martina Reske - ‘From neuropsychology to neuroimaging’

Dr Reske is from the Department of Psychiatry, Laboratory of Biological Dynamics and theoretical Medicine, University of California, San Diego, USA

Katharina Pauly - ‘Neural correlates of working memory, emotion and its interaction in adolescent-onset schizophrenia’.

Katharina Pauly is from the Department of Psychiatry and Psychotherapy, MR and Neuroimaging Laboratory at the University of Aachen, Germany.

Dr Susanne Weis - ‘Hormones and how female brain function changes during the menstrual cycle’

Dr Weis is from the Department of Neurology, Laboratory of Clinical Neuropsychology at the University of Aachen, Germany.

Dr Thilo Kellermann - ‘Reproducibility of fMRI experiments within and between scanners – towards a psychometric assessment of a psycho-physiological rating’.

Dr Kellermann is from the Department of Psychiatry and Psychotherapy, MR and Neuroimaging Laboratory at the University of Aachen, Germany.

Registration - Free

A light lunch will be provided after the presentation. Please advise if any special dietary requirements.

**Please RSVP to CRRMH on 02 6360 7828 or
