

# HOW IS YOUR COMMUNITY GOING?

How connected are your community members?	Strong social networks	Majority of community socially connected	Certain groups are socially isolated	Social isolation is prevalent
How socially supported are your community members?	People go out of their way to help others	Community supports those in need, but individual support is tentative	Those in need are often left to their own devices	Broader social factors prevent aid being given
How do people feel about the community?	Community are proud to live here and new people move here	Generally happy, but there are known things they want changed	Hope that issues in the community can be addressed	Disenfranchised, cannot see a route to improvement
Do people have access to rewarding activities?	Appropriate and desirable for everyone	Some available, but certain groups are hard-to-reach	Few opportunities, rarely widely supported	No community events occur
How is the economic climate?	Opportunities for all	Some industries are thriving	People are moving away for work	Industries in decline, training absent
How does your community look?	Spaces and places are used, cared for and appreciated	Parks and community buildings are underused	Areas are poorly cared for	There are not enough places for the community to go
What is health and social care like?	Consumers have choice and access services when needed	Access is impeded by lack of knowledge and social factors	Insufficient services in the community	Consumers must travel to access crucial services

## WHAT CAN YOU DO?

Keep it up!	Share progress and strengths	Hold workshops	Promote opportunities
	Design targeted opportunities	Gather data to advocate for change	Ask for external guidance
	Build partnerships with key networks	Organise activities	Draw together local stakeholders
